

# ARE YOU FINDING IB FRENCH HARD?

Come along to our workshops which have been specifically designed to assist students with the French B course for the IB (standard level).

The workshops are designed by experienced teachers to:

- Improve student ability to respond to set IB tasks
- Increase student confidence when faced with assessments
- Overcome some of the “overwhelming” nature of the IB course

We are offering two workshops in the January holidays which focus on different skills:

## **IB Writing Skills for French B Standard Level Tuesday 15 January**

- ❖ Learn about the different text-types, their format and inclusions
- ❖ Focus on logical connectors, persuasive writing and forming an argument
- ❖ Revise key vocabulary from core and optional topics
- ❖ Practise writing tasks in a nurturing environment with individualised attention

## **IB Speaking Skills for French B Standard Level Interactive and Individual Orals Wednesday 16 January**

- ❖ Learn about structuring an individual oral response
- ❖ Practise commenting spontaneously and reflectively on picture stimuli
- ❖ Revise key vocabulary from core and optional topics
- ❖ Focus on preparing an argument, offering and countering opinions

*Students can attend either workshop, or both.*
